SUMMARY

Frontend Engineer with 3+ years of experience building and maintaining web and mobile applications using React, React Native, and TypeScript. Strong in handling complex UI logic, performance optimization, and debugging real-world production issues. Experienced in working closely with UI/UX and backend teams to deliver end-to-end features, ensuring consistent and reliable user experience across platforms.

WORK EXPERIENCE

Yara Africa & Asia

Remote

Fullstack Developer

Apr 2025 - Mar 2026

Worked on Yara FarmCare, a large-scale digital platform supporting farmers across multiple markets, including both web and mobile applications.

- Owned end-to-end feature delivery, from requirement clarification with business and architects to production release.
- Built and optimized frontend logic using React and React Native, ensuring consistent user experience across platforms.
- Investigated and resolved complex cross-layer issues involving frontend state management, API performance, and backend data structures.
- Collaborated closely with cross-functional teams to deliver scalable and reliable features in a production environment.

ABC Digital

Frontend Developer

Nha Trang

Aug 2023 - Mar 2026

Worked on multiple web and mobile applications, including OdiDi Travel, CWO 3D, and internal enterprise systems.

- Developed frontend features using React, TypeScript, and Redux in real-world production projects.
- Integrated RESTful APIs and ensured accurate data flow and UI rendering.
- Collaborated with UI/UX designers to build a reusable component library using React and Tailwind CSS, improving development efficiency across teams.
- Worked within a monorepo architecture, contributing to shared codebases and maintaining code quality through peer reviews.
- Applied performance optimization techniques such as code splitting and lazy loading to reduce initial load time.
- Participated in CI/CD pipelines and supported deployment processes.
- Took ownership of backend-related tasks using Node.js/Express to improve data flow and accelerate feature delivery.

EDUCATION

Bachelor's Degree in Information Technology

Nha Trang University | Sep 2019 – Aug 2023

TECHNICAL SKILLS

- Frontend:
 - ReactJS, NextJS, React Native, TypeScript
 - Advanced state management: Redux, Zustand, React Query
 - Tailwind CSS
- Backend:
 - Node.js, NestJS
 - REST API integration
 - PostgreSQL
- System & Engineering:

- Monorepo architecture
 - Microservices integration
 - Debugging production systems
 - Git, GitHub
- Others:
 - Agile / Scrum framework
 - English: Working proficiency
